Kendal

FIRM

1 ActivCare Protection

Added layer of protection keeps sleep surface hygienically fresh. Anti-microbial treatment added to the knit fabric promotes a hygienic sleep environment. Long-lasting protection against dustmites and unpleasant odours.

2 Cool Knit Fabric

The perfect knitted cotton fabric keeps you cool and dry all night. Soft and flexible to the touch. Breathable, durable and anti-bacterial.

3 Quality Filling Layers

Combination of foam and luxury fibre, to conform and distribute body weight.

4 Insulator Pad Layers

A combination of fibres and foam, prevents comfort layers from shifting, for a restful night's sleep.

5 ActivCoil® Spring System

Advanced spring system actively supports your body by firming and responding to your body weight. Side-to-side construction increases sleep surface and prevents roll-together.

6 Surround ActiveEdge® System

Positioned along the mattress perimeter to prevent edges from sagging and increase sleeping area.
